

## General Safety

- 1 Drugs, alcohol, and firearms are prohibited on company property.
- 2 Observe all postings, warnings, and other safety information.
- 3 Do not enter hazardous areas without authorization and supervision.
- 4 Safety Data Sheets (SDS) for chemicals can be found at several locations in plant.
- 5 Check with your host for personal protective equipment (PPE) requirements.
- 6 Watch your step to avoid slips and falls. Be aware that tools and materials could be on the floor in high traffic areas.

## Contractor Safety

- 1 Read and follow all requirements of this brochure.
- 2 Acquire prior approval for any materials, processes, or equipment brought on site.
- 3 Comply with Storm's waste disposal rules.
- 4 Understand your responsibility for any spills and appropriate spill response.
- 5 Promptly report any injury, spill, or unsafe conditions to your host or Storm Power EHS Manager (7228).

Contractor's employer is responsible for:

- Implementation of worker safety program.
- Identifying and providing appropriate personal protective equipment (PPE) based on type of work performed.
- Provide required EHS training to employees and supervision.

*Your signature on the visitors log serves as acknowledgment that you have read, understand, and agree to abide by the guidelines contained in this brochure.*

## Emergency Plan

### FIRE

In the event of a fire - Stay with your host! They will escort you to a safe area.

#### In the event you get separated:

1. Exit the building through the nearest exit. If unsure, ask an employee.
2. Gather in the designated evacuation zone with Storm employees.
3. Await further instructions.

#### If you discover a fire:

1. Alert others in immediate hazard area.
2. Evacuate the building.

### SEVERE WEATHER

If there is severe weather - Stay with your host! They will escort you to a safe area.

#### In the event you get separated:

1. Move to a designated severe weather area. If unsure, ask an employee.
2. Await further instructions.

### MEDICAL EMERGENCIES

If you are injured or need medical assistance, notify your Storm Power host, EHS Manager (7228), or HR Manager (7254). There are first aid stations located around the building.

### PERSONAL PROTECTIVE EQUIPMENT (PPE)

When entering the production areas, lab, or warehouse areas, all visitors are required to wear:

1. Safety glasses with side shields available in lobby and conference room.
2. Fully enclosed footwear must be worn when entering production areas. No open toed shoes or sandals allowed. Check with your host for personal protective equipment (PPE) requirements and precautions.

### PEDESTRIAN SAFETY AND MOVING EQUIPMENT

1. Be alert of your surroundings.
2. Stay clear of moving equipment including forklifts and cranes.
3. Stay in aisles and do not take shortcuts.
4. Do not cross behind a forklift while it is backing up.

### CHEMICAL SAFETY

As required by OSHA, Safety Data Sheets (SDS) files are located in work areas. These sheets provide first aid information if an employee or their guest comes in contact with chemicals and potentially harmful substances.
